

THE NEW PEARL

# RHYTHM TRAVELER

THE PERFECT KIT FOR BOTH  
SILENT PRACTICE AND  
COMPACT LIVE PERFORMANCE.

# RHYTHM TRAVELER

## Compact Travel

Rhythm Traveler's toms neatly stack to create an extremely compact kit for transport. Every facet of the kit, including every piece of hardware, has been designed with the working and rehearsing drummer in mind. Our super sturdy 70W Series Hardware offers both double braced legs and a low-mass, lightweight design, making it the perfect compliment to Rhythm Traveler. You no longer have to have a large vehicle to be a drummer. With Rhythm Traveler your kit can even fit in the passenger seat of your car.

Introducing Rhythm Traveler. The perfect kit for both silent practice and compact live performance.

If you're like most drummers, rehearsal time is limited. Simply finding a place to practice without disturbing the peace can be a nightmare. But imagine being able to practice anytime of the day or night, on a full size five piece kit, without disturbing

people in the next room. Then imagine carrying the same kit, neatly stacked in the passenger seat of your car, to do a live gig. Rhythm Traveler is the only kit that combines both these drumming necessities at a price well within reach of any working drummer. Rhythm Traveler is the go anywhere, practice anytime kit of your dreams.

## Live Performance

Rhythm Traveler is the perfect kit for most any live performance situation where space, or the lack of it, is a major concern. With Rhythm Traveler, you're set-up, sounding great, and ready to play before most drummers could even unload their set. And when the gig is over, you're out just as quickly. With Rhythm Traveler, going from practice to live is as easy as changing the batter heads and adding a couple of cymbals.

The kit at left is shown with the included performance batter heads installed and a Stage Ready Performance Set of Pearl Cymbals (sold separately). Available colors include #31 Jet Black as shown, #95 Deep Blue, and #33 Pure White.

RT705C in #31 Jet Black with optional cymbals.

### Muffle Head

Pearl's all new Muffle Heads allow you to silently practice anytime while maintaining the feel of a regular drum head.

With Rhythm Traveler, you get a complete set of ultra-high quality drums and hardware, specifically designed to be lightweight yet super sturdy and highly durable. Rhythm Traveler shells are manufactured by Pearl's patented Heat Compression Shell Molding System, which is the same process used for every drum we make. Tom sizes are 10", 12" and 14" and their 5" deep, single headed design allows them to neatly stack for compact travel while producing a great tone for live performance. Rhythm Traveler's wood shell snare drum is 5"x13" and produces a very warm, full bodied snare tone with excellent crack. With Rhythm Traveler, you get two complete sets of heads, one for live

performance and one set of Pearl's new Muffle Heads for silent practicing. Muffle Heads are manufactured of a super strong mesh fabric that responds like a regular drum head, while producing virtually no sound. Together with Pearl's Silent Cymbal Pads, Rhythm Traveler produces the realistic feel of a regular kit, complete with rim shots, every time you rehearse. And the best part is changing from a practice kit to a live kit is as easy as changing the batter heads and adding cymbals. Rhythm Traveler is great for the working drummer needing a small portable kit, the beginning drummer needing to get started with a high quality set, or any drummer that's tired of practicing at someone else's convenience.

### Silent Cymbals

Together with our new Muffle Heads, Rhythm Traveler's Silent Cymbal Pads offer the perfect combination of feel and performance.

### Silent Rehearsal

When you're ready to practice, there's no substitute for the feel of a real drum kit. Rhythm Traveler's silent Muffle Heads and cymbal pads allow you to keep the response of a drum head, and quietly rehearse anytime you choose. Plug in a set of phones and play along with your favorite tunes, or just grab a few minutes when everyone else is sleeping, with Rhythm Traveler anytime can be rehearsal time.

The kit at left is shown with the included Muffle Head batter heads and Silent Cymbal Pads installed, ready for practice. Available colors include #31 Jet Black as shown, #95 Deep Blue, and #33 Pure White.

## Rhythm Traveler Hardware

Rhythm Traveler comes complete with a full set of our all new 70W Series double braced hardware. This impressive hardware line was developed to provide maximum stability and durability, while keeping weight to a minimum for ease of transport. Every function and feature on our 70W series hardware is straight forward and dependable, with ease of use as the ultimate goal. All pipe joints feature an extended nylon joint bushing providing an extremely strong and stable adjustment system.

Rhythm Traveler's H-70W Hi-Hat stand offers a direct link pull system for precise feel and strong action, sturdy double braced legs, full height adjustability and a fully adjustable cymbal clutch. The S-70W provides adjustments for both height and basket tension, and its double braced leg tripod and low center of gravity make it an extremely stable stand. The C-70W cymbal stand provides a 3 section adjustment system, a deep gear cymbal tilter, and sturdy double braced legs. The P-70 bass drum pedal features a great feeling strap drive cam system, full adjustment over spring tension and a high quality felt beater for use with both standard and Muffle Heads.

## Accessories

When you find the need to expand your Rhythm Traveler kit, Pearl manufactures hundreds of percussion accessories to get the job done right. A few shown below are Pearl's D-75 and D-80 Drummers Thrones, the B-70W Boom Cymbal Stand, the CH-70 Cymbal Holder, Pearl's lightning fast P-100TWO Double Pedal and Pearl's Performance Ready Cymbal Packs.
